DURZ on L-Root

NZNOG  Hamilton, NZ
January 2010

Joe Abley, ICANN
Some very early results, based on data collected by root server operators and collated by DNS-OARC during the transition to the DURZ on the L root server.

Graphs as prepared and published by Duane Wessels

https://www.dns-oarc.net/node/240
Data collection continues.

OARC members can gain direct access to packet captures, priming query data, etc.
